Christophe Ortega

Welcome to a new FACC Los Angeles member : French Accelerator !

French Accelerator invests and accelerates early stage **high-tech French companies** looking to enter the U.S. market. They provide your company with hands-on mentoring to ensure a successful engagement and a healthy business in one of the most important markets of the planet.

Their program is open to a broad range of innovative mid-sized companies (10+ people with a strong management team) within the High-Tech and Entertainment industries. You are the ideal candidate if you wish to generate extra-revenue, enjoy customer traction and have the potential for category leadership in a large, global market. **The French Accelerator program is 3 months in duration.**

French Accelerator has location in the **fastest growing tech center, Silicon Beach in Los Angeles** and in **Paris, France**. During the program, you will face the realities of the dynamic and competitive U.S. environment, learn important business and cultural idiosyncrasies and benchmark product, team, and business model against others in your market space. Most importantly, the French Accelerator team will help you to understand the complex multi-tiered regulatory market in the United States at the Federal, State and Local levels.

During the program, their team will help you **develop a comprehensive plan and budget**, including important success measurement criteria. Once you are ready, French Accelerator will assist you in actively engaging with customers, establishing relationships, adjusting communication styles, validating product/market fit, and even connecting with potential investors if you wish.

Throughout your time with French Accelerator, the team of experienced mentors will watch over you, continuously challenging assumptions and providing important feedback, while your company executes towards reaching set milestones and objectives.

French Accelerator sole focus is on the success of your business in the US market.
